MINECRAFT FOX PLUSH PATTERN

AVERAGE FINISHED SIZE

Nose to tail: 75cm
Foot to ear: 37cm

Please note this pattern, including all images are for personal use only. Products made from this pattern may be sold for profit provided reference to original the original pattern is made. No part of this pattern may be distributed, sold, or published in any capacity. BearCrossHoney 2022 ©
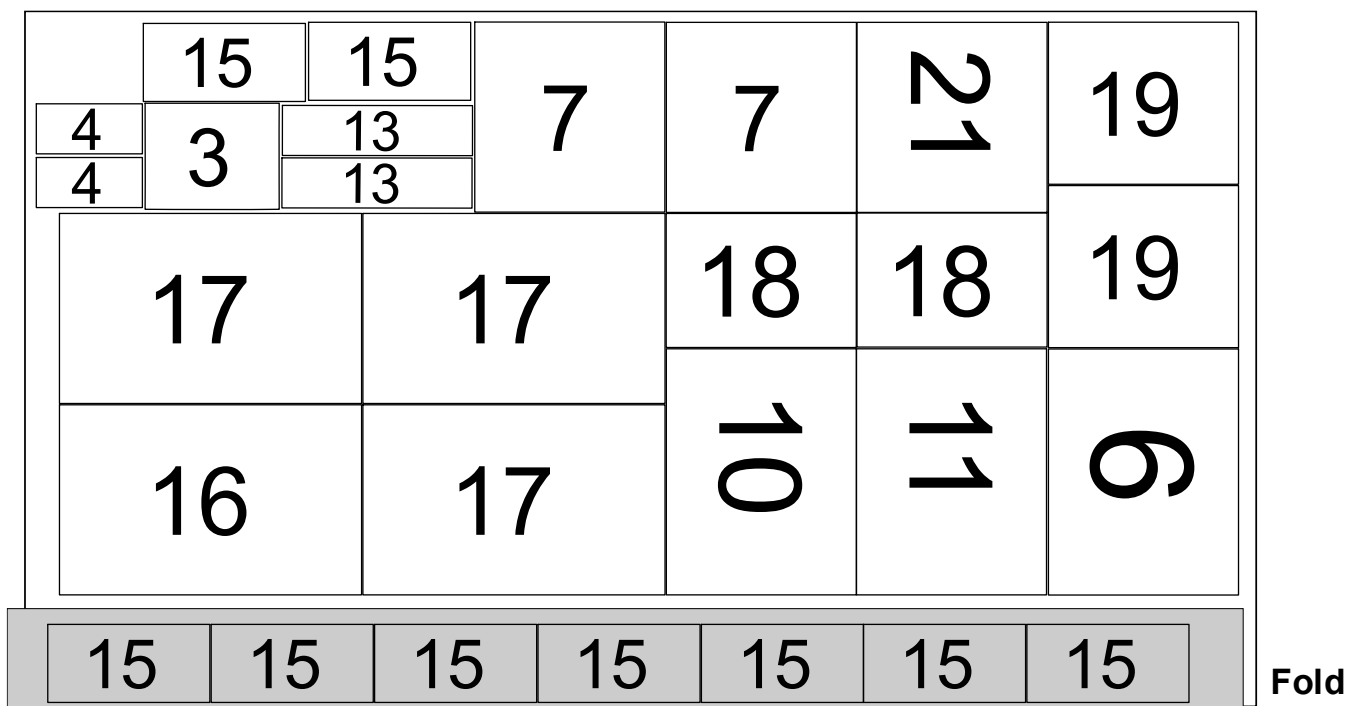

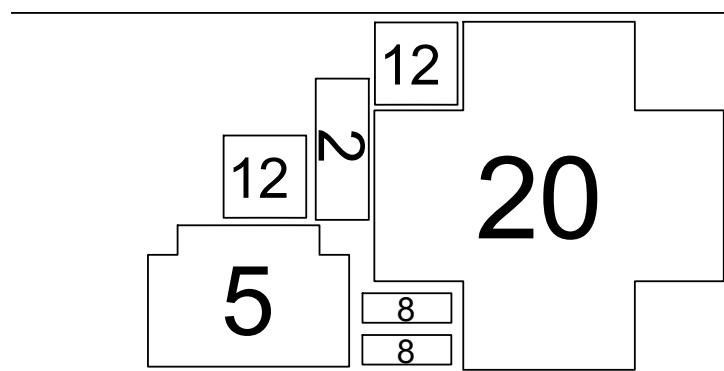

PATTERN INFORMATION

FABRIC AND NOTION REQUIREMENTS

- o 70cm orange fleece (112cm wide)
- o 32cm white fleece (112cm wide)
- o 16cm black fleece (112cm wide)
- o 18cm x 22.5cm heavy weight interfacing
- o Thread in black, white and orange
- o Stuffing

SPECIAL CUTTING NOTES

- Some pattern pieces such as Body Under (16) have internal cutting paths. Place pins around the area that will be cut to support the fabric. You will need to insert a pin along the cutting line, fold the fabric and snip along the folded line with embroidery scissors. Lay the pattern flat again cut as usual. Cut the black solid lines in the corners as well.
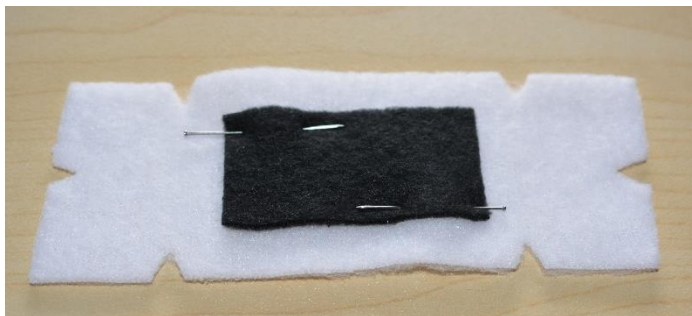

GENERAL PATTERN NOTES

☐ Recommended stitching length is between 3mm - 3.5mm to accommodate the bulky fleece fabric. Please remember to test tension on a scrap piece before sewing.

☐ Seam allowance is always **1cm** unless otherwise stated. If the pattern says 'top stitch' your seam allowance will be 2mm or as close to the edge you're comfortable.

☐ Backstitch always, unless specifically told not to.

☐ Unless otherwise stated, throughout the whole pattern you should ***start and stop sewing 1cm*** from the edge of the fabric. This is to ensure that the pieces will line up better, as well as seams will meet in corners. This way the stuffing won't fall out. 😊
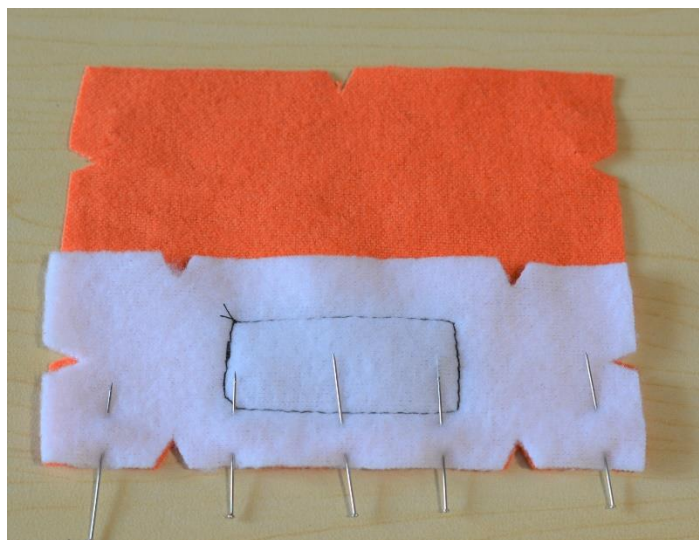

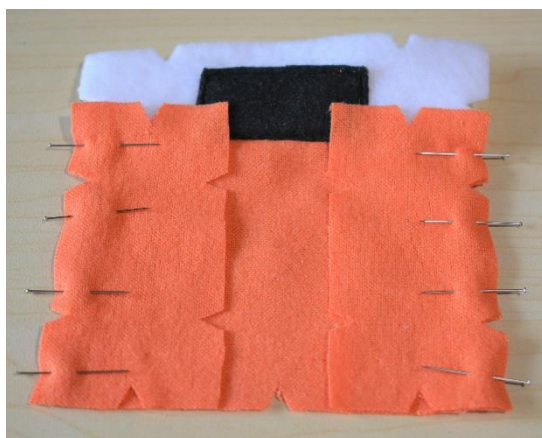

ASSEMBLING THE HEAD

1. Topstitch nose (1) to snout front (2) on right side of fabric, matching dots.

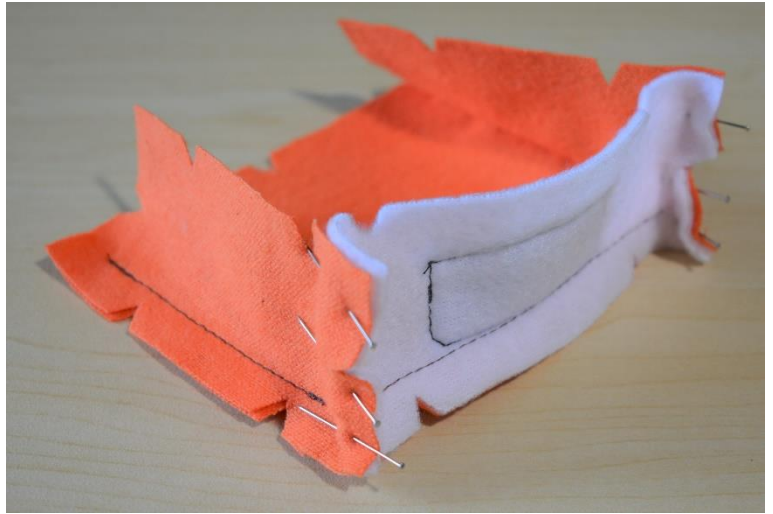

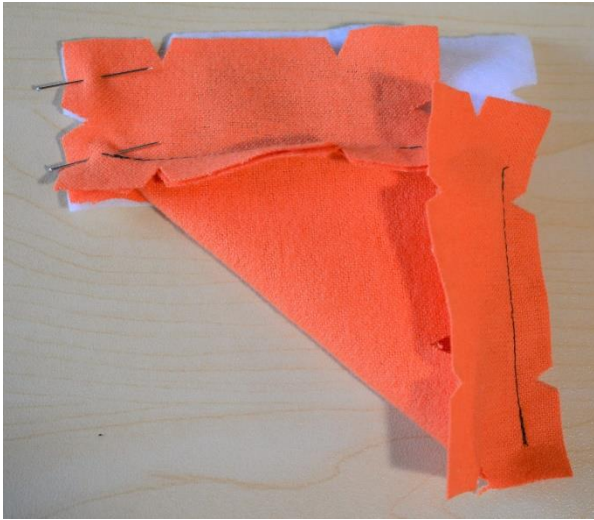

2. Putting right sides together, sew snout front (2) to snout upper (3) long edge, matching notches and edges. Press seam up towards nose.

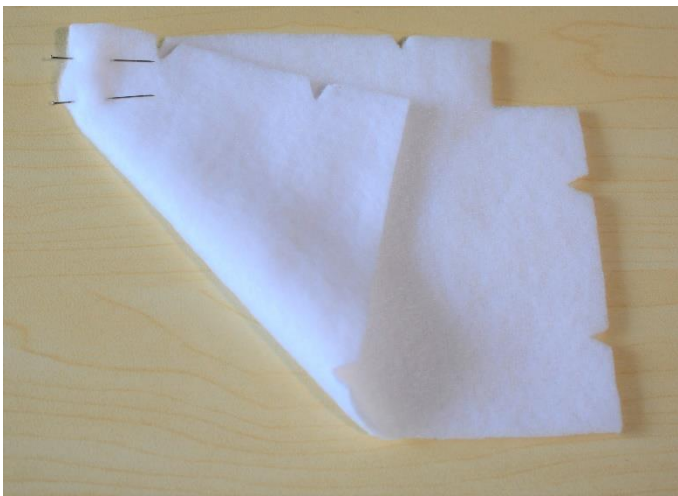

3. Sew snout sides (4) to either side of snout upper (3) matching notches and edges. Stop sewing 1cm before the end of the orange fabric.
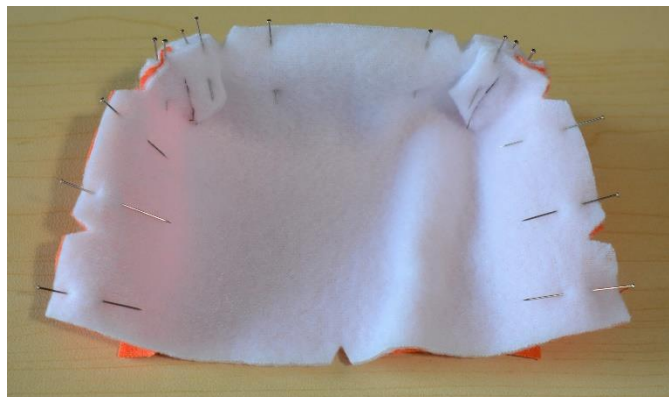

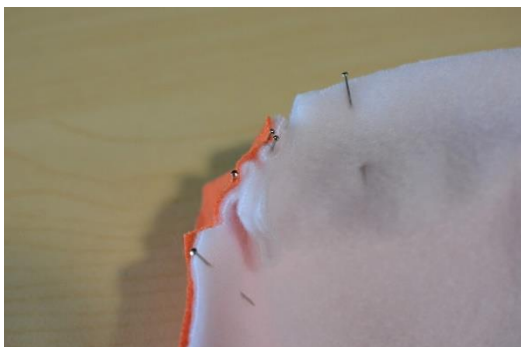

4. Fold snout sides (4) up to meet snout front (2), right sides together and matching notch and edges. Sew in place.

5. With right sides together, fold corners of snout lower (5) to match dots. Stop sewing 1cm from straight edge but sew to the edge of the angled side.

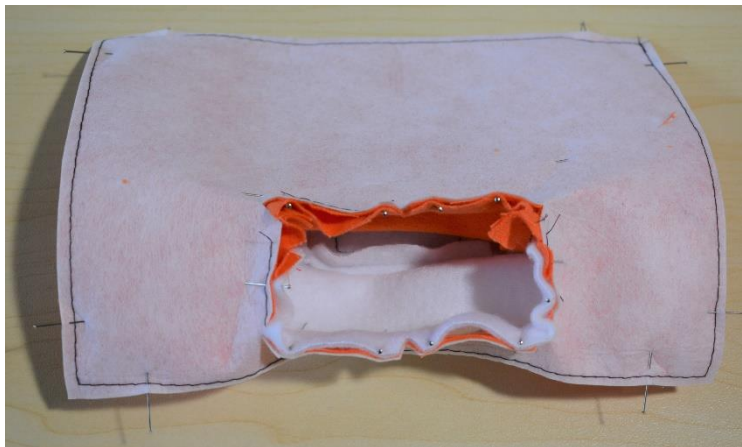

6. Turn snout lower (5) the right way out and place it inside the snout upper piece, so right sides are together. Match seams and notches. Sew around, keeping previously sewn seams facing opposite directions to reduce bulk.
   Turn right way out.

7. Baste / fuse face (6) to interfacing including around mouth opening.
8. Sew snout into the right side of face (6) matching corners, edges and notches. The seam between the snout upper and lower should line up with the T mark on the face. Use plenty of pins and sew slowly.

9. Sew head sides (7) to short sides of face (6) right sides together, matching notches.

10. Change thread to white and change stitch length to 2.5mm. Topstitch eye pieces (8) to face (6) and head sides (7) matching large dots. Change to black thread. Line up the eye dots (9) over the eye pieces (8) following the seam of the face and sides. Topstitch eye dots (9) to eye pieces (8).
    Optional: Sometimes when I sew with fleece, topstitching can distort the shape of the piece. Normally I trim the edges with embroidery scissors to straighten it out a little bit. If you decide to do this, trim down in small increments- you don't want to accidentally cut too close to your stitches. Also, sew the eye dots (9) down before doing this.

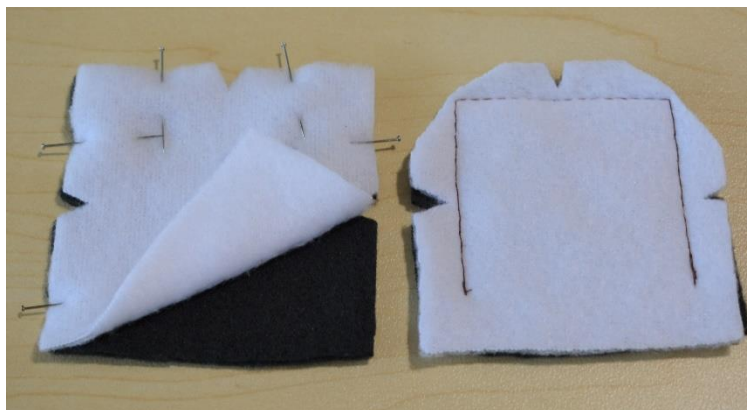

11. Change to regular thread. With right sides of fabric together, sew head under (10) to face (6) matching notches and edges. Fold the corners of head side seams up so they don't get caught in the new seam. Also, be careful to not catch the snout in this seam.

12. Sew ears (12) together around three notched sides, pairing a black and white piece together. Clip corners. Turn right side out.

13. Insert ears (12) through cut lines on head top (11) from the right side. White side of ears should be facing shortest distance to edge. Sew seam down, 0.5cm from edge of head fabric.
Tip: if you're having trouble getting the ears to lay flat in the holes, pinch all fabric in the middle and roll between your fingers until the fabric lays flat.

14. Sew head top (11) to face with right sides together, matching notches and edges. The white side of the ears should be closest to the face. Just like before, fold the head side seams out of the way.

15. Sew head back (13) pieces to head sides (7) matching notches and edges.

16. Sew head sides (7) to head top (11) matching notches and edges. Fold the head back (13) seams out of the way.

17. Sew head sides (7) to head under (10) matching notches and edges. Fold the head back (13) seams out of the way.

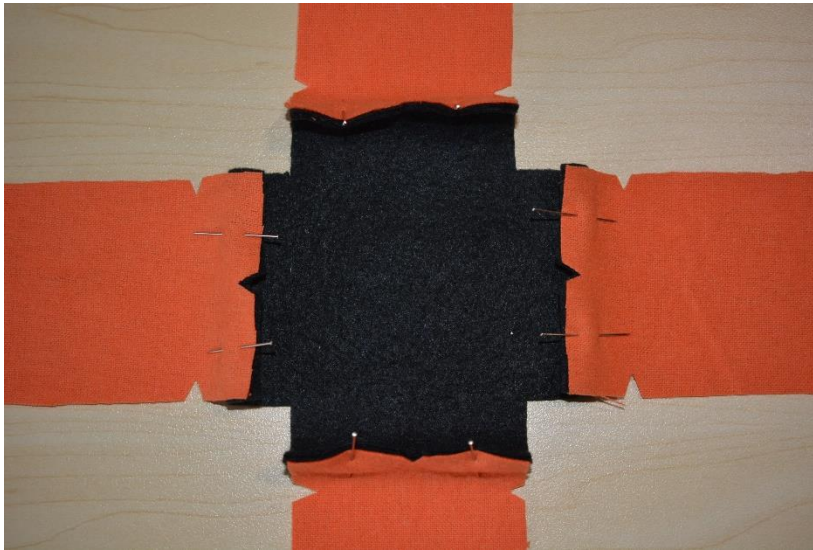

18. Sew head backs (13) to both head top (11) and head under (10) on both sides, matching notches and edges.

1) Sew the legs (15) to the feet (14) edges to create a cross, matching notches and edges. Sew all the way across.

2) Fold the feet (14) in half diagonally, and sew up each side, matching notches and edges. When sewing on black end of fabric, sew to the edge. For the orange side, leave the standard 1cm.
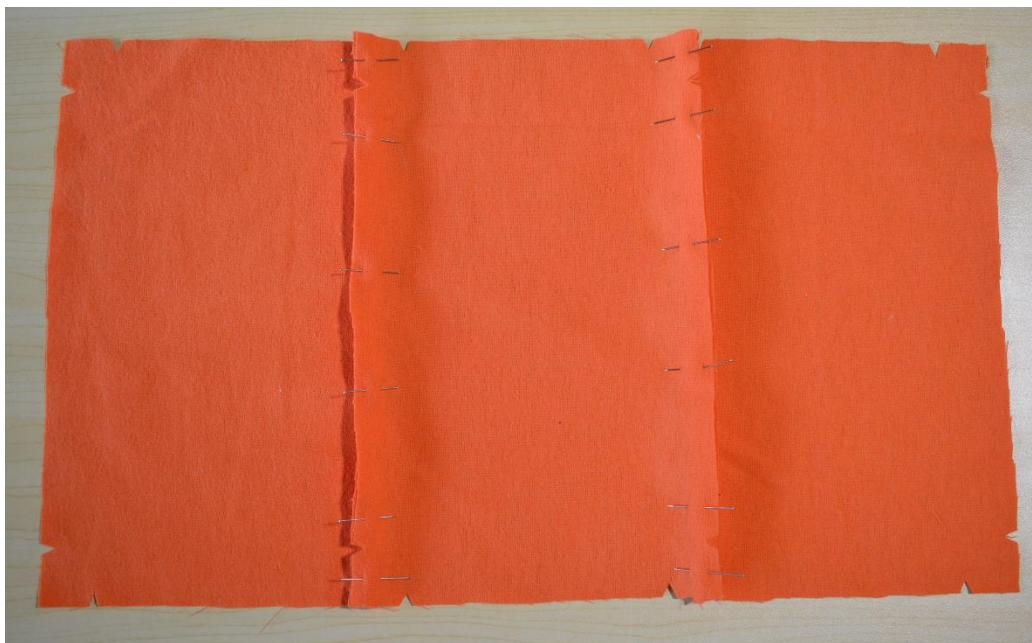

3) Fold the feet in the other direction, pin and sew up remaining side seams, matching seams, edges and notches.

4) Turn the legs (15) right side out, and pin into body under (16) from the right side of fabric. Match edges and notches. Sew in place, all the way around.

5) Sew body pieces (17) together along longest edges matching notches.

6) Sew body pieces (17) to body under (16) with legs on the inside.

7) Place the head inside the body pieces (17) making sure that the snout side of the face is matched with the body under (17). Pin the head back (14) pieces to the body pieces, matching notches. Sew in place, all the way around. You may need to sew one edge at a time.
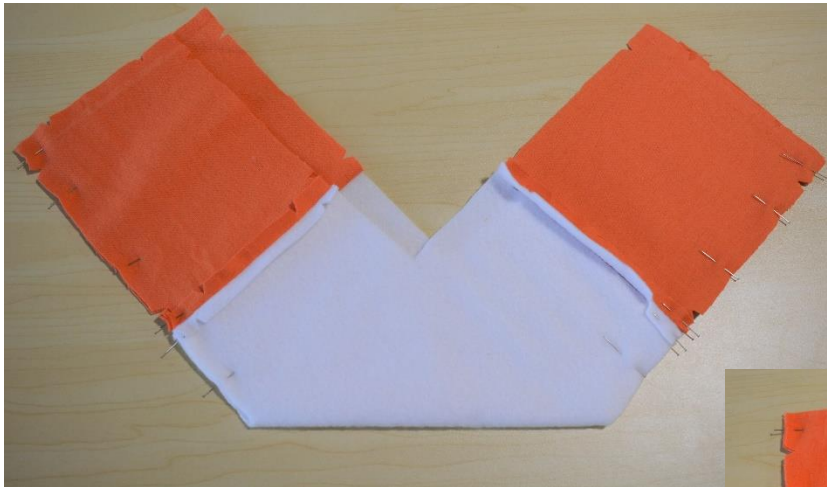

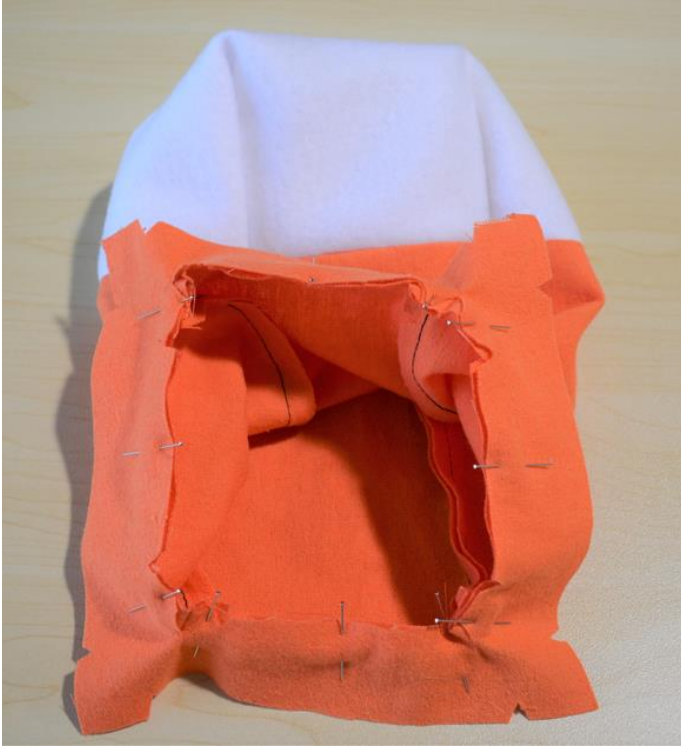

1) Attach Tail A (19) and Tail B (20) pieces to matching sides of Tail end (18) to make a cross shape like the feet. Match edges and notches.

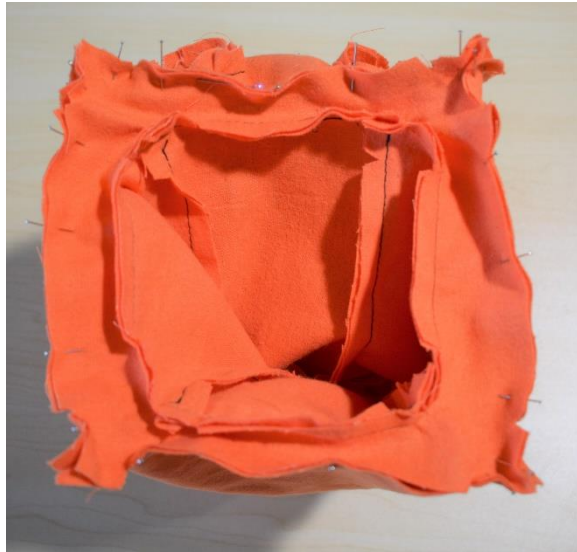

2) Fold the tail in half diagonally, just the same as the feet, right sides together. Sew the outside edges. Sew to the edge of the white fabric but leave the usual 1cm on the orange end. Fold it the other way and sew. Turn it out the right way.

3) Sew tail into right side of butt (21) matching notches and corners.

4) Put tail into the body, tail first. Match notches and corners. Sew all the way around, one side at a time. Leave a gap in the seam on the edge with the legs for stuffing.

5) Turn right side out, stuff. Use a ladder stitch to sew the opening closed.

Finished! 😊
